Taking You to the Next Level

Experience Counts

RP&B is a mid-sized CPA and advisory firm that has been serving the Inland Empire area for over 25 years. We provide tax, audit, accounting and consulting services for a wide range of business clients.

We partner with our clients. The only way to effectively support a client is to help with more than just compliance reporting needs. The true value a CPA firm provides comes from the innovation and creative advisory insight they can offer as they get to know you and your business.

Client Centered Communication (C³)

Our C³ Process is our focus on getting to know you and your business. What do you want to accomplish in a set timeframe and how much risk do you want to take to help get there? We take the time to learn your needs and interests to determine what types of support you need, what profit refinement strategies will best serve you and how we can best manage taxes to your advantage.

Goal Setting

Your RP&B team is not just driven by deadlines, but by plans we setup to help each client create and make progress toward their goals. We typically work with clients to set short-term objectives and long-term targets. We then meet with them regularly to measure success and modify activities as needed.

Trusted Advisors That Make a Difference!

“Make it Grow, Make it Liquid, Make it Last”

Core Support

RP&B is a full-service CPA and advisory firm. Our clients include emerging to large privately held companies, not-for-profit organizations and high net worth individuals. We ensure clients have a solid financial foundation to create accurate and timely reports. Our tax professionals help create and manage a tax plan to enable you to leverage tax incentives, credits or deferral opportunities.

Profit & Advisory Focus

Our professionals become part of your leadership team and help clients gain a fresh, independent perspective. RP&B becomes your trusted advisor and will design a plan to help you move through different stages of your business lifecycle. We provide creative thinking, investigate unexpected events and monitor performance. We are always thinking proactively for our clients.
